- **ISO17025 ACCREDITED**

### We Can Do It For You

Fast and Very Cost Competitive!

- Start to Finish, our proprietary CE system makes it a fast & straight forward process
- Fully Accredited Test Lab
- Our Experts can provide you with the all the required documentation including completed compliance reports and your Declaration of Conformity (DoC). We also help you build your Technical Construction File (TCF) and we even provide the CE label!

### We Can Help You Do It

Concepts, Prototypes, and Finished Products!

- A full CE project is an expensive and time consuming way to find out *if* your product complies. Have CertifiGroup Experts quickly review your product for compliance before the full CE project.
- Our Experts can tell you "where you stand" and help bring your product into compliance.
- Preliminary reviews, construction evaluations, marking & instructions, non-compliance issue resolution, Technical Construction File (TCF) preparation, compliant component sourcing, test plan preparation... we can help with all areas of CE compliance!

### We Can Teach You To Do-It-Yourself

Most Products are "Self-Declaration"

- The beauty of CE is that for most products, it is a "self-certification" system = if you have the Standards, Test Equipment, & Knowledge, you can do it yourself!
- Want to do it yourself but don't know how? We can teach you.
- Want to do the tests yourself? We can provide the test equipment and hands-on training on performing the tests.
- You can even bring your product to our lab and we will teach you while we perform the CE evaluation on your product.

### All Directives / Products

Even Notified Body Required Directives!

- We can get you to the CE finish line fast
- Single units, custom products, and used equipment - CertifiGroup knows your options
- Get your CE Directive Review now, at CertifiGroup
